SENATOR STANLEY IN BIG SANDY TOWNS NEXT WEEK

Starting at Pikeville Monday and Reaching Louisa Thursday, the Twenty first.

United States Senator A. O. Stanley will speak at Pikeville Monday, October 18th, at one o'clock. Prestonburg Tuesday, the 19th, at 1 p. m. Paintsville Wednesday, the 20th, at 1 p. m. Louisa Thursday, the 21st, at 1 p. m. Also, Senator Stanley will speak at Stone, (which is on the Tug river side of Pike county) on Saturday of this week, 16th. Senator Stanley is one of the most interesting speakers in the United States and his services are in demand all over the country. He is giving Kentucky a part of his time, however, and the Big Sandy is included in his limited itinerary. There should be a large crowd of women and men to hear him at all these points. He participates in the debates in the Senate on the League of Nations and he is able to make plain the meaning of every sentence of that great peace document.

DALTON BUYS PROPERTY AT ALTAVISTA, VA.

The following is from the Journal at Altavista, Va. W. P. Dalton has lived at Potter, this county, several years. The largest real estate deal staged within the corporate limits of Altavista since the town's existence, both from acreage and price paid, was that just closed whereby Mr. A. J. Dalton of Huntington, W. Va., purchased the property known as the bungalow property from Mr. T. V. Elsom. Rumors that the deal was under way have been prevalent for several weeks but nothing definite could be learned until the first of this week.

In addition to the land lying immediately around the bungalow, Mr. Dalton gets half of the young orchard on the next bluff west of the bungalow and the land between the orchard and Hewford avenue. In addition to this all that parcel of land between the Virginian and Southern railways, with all improvements thereon.

It is estimated that the total acreage is between seventy-five and eighty acres.

Mr. Dalton, a coal operator, has plans underway for the immediate construction of two bungalows in the grove at a cost of about \$35,000 each.

Mr. W. P. Dalton, nephew of the purchaser, who with his wife, arrived Saturday to superintend the improvements, advises that all materials necessary to make the improvements are now enroute to Altavista and most of the workmen are on the ground. The two bungalows, when completed, will be occupied by Mr. Dalton's mother and sister.

Mr. W. P. Dalton, when asked as to whether or not Mr. A. J. Dalton expected to spend his time here replied, "not for the present, but he probably would later on." He also intimated that further building would probably be done in the very near future beside the bungalows now about to be constructed.

Board of Education to be Elected in Every County on November 2

Kentucky has a new school law which requires the election of a Board of Education for each county, consisting of five members, elected from the county at large.

Candidates may get their names on the ballots by filing a petition not less than 15 days before the election, signed by at least 50 voters.

The Board elected will have charge of the schools and will also elect the County Superintendent of schools. It is a radical change all the way through and the citizens will do well to become informed about it.

STATE POLICE CLASH WITH TRAIN RIDERS

Logan, W. Va.—Six state policemen under Captain Brockus and two special officers of the N. & W. railway engaged in a gun fight with a gang of freight train riders near Bredon station, Mingo county, Saturday night, which resulted in the wounding of William Marcum, aged 22, and his arrest together with William P. McCloud and Lewis Merritt. Two other men of the gang escaped. The encounter between the officers and the five men is said to have been the result of numerous hold-ups and robberies of freight crews and others at Wilsandale, Dinges and Bredon.—Democrat.

REV CHEAP MOVES HERE BY MOTOR TRUCK

The motor truck which was moving the household goods of Rev. John Cheap went through a bridge on West Virginia last Saturday afternoon several miles below Louisa. The driver jumped and escaped injury. Fortunately Rev. Cheap and daughter, Edith, who were along had gotten off and walked over the bridge. They came on to Louisa by N. & W. train. The furniture and household goods reached here the next day laden damaged.

ARRESTED AT MORROW SPEAKING

F. T. HATCHER GRABBED BY THE SHERIFF AND A DAMAGE SUIT RESULTS.

The following is a dispatch to the Courier-Journal from Pikeville: Pikeville, Ky., Oct. 6.—F. T. Hatcher, Democratic leader, tonight filed suit here against Sheriff R. S. Sowards for \$100,000, after the Sheriff had arrested him for interrupting Governor Morrow's speech here today.

Mr. Morrow in his speech said that he wanted to talk about some of the "lies" that Democratic speakers had told lately.

"John Waugh," he said, "charged that if Republicans are elected negroes will go to school with the white people and they will ride in the same coaches with the white people. That is a lie."

"He didn't say that, Ed," Mr. Hatcher said, calmly, from a position in the crowded aisle near the door of the court house.

Mr. Hatcher was seized by Sheriff Sowards and taken to the jail. He was released soon afterward.

False arrest and imprisonment are charged against the Sheriff in Mr. Hatcher's suit.

Road Overseers Should go to Work at Once

The roads of Lawrence county are now dry and fairly passable, except for the sore places which are mud holes when it rains. Every overseer should get his men out now, while the weather is dry and all these places.

Otherwise, the first rain will put the roads into just as bad condition as heretofore. The bill just this side of Blaine town needs some of this kind of work very badly and the County Judge has just given the overseer orders to get to work on it immediately.

About three miles beyond Blaine there is a very bad place, caused chiefly by the water from an oil well now being drilled on the hillside just above the place. The authorities should see that those responsible for this should put in a culvert or drain and repair the damage already done.

MRS. COTNAM TO SPEAK AT LOUISA MONDAY

THE ISSUES OF THE CAMPAIGN TO BE DISCUSSED BY AN ARKANSAS WOMAN.

Mrs. T. T. Cotnam, of Little Rock, Ark., will address the voters of Lawrence county at the court house in Louisa on next Monday, October 18. She is quite a brilliant woman and her address will merit a large audience. Since the women are tilled voters we are going to have the opportunity of hearing them on the issues involved in our governmental affairs. Heretofore it has been a very rare thing to have women taking part in political discussion, but already they have shown themselves equal to the occasion. Talking is said to be woman's strongest characteristic, and if this be true there has been opened to her a very wide field.

Everybody is invited to hear Mrs. Cotnam, the first of her sex to speak in Louisa for democracy. She made a speech at the National Convention which was quite a "hit."

MOVING TIME.

K. F. Compton has rented a house near the C. & O. freight depot and as soon as repairs and additions are completed will move into it from the house now occupied on Lady Washington street. S. J. Justice and family will then move to the house vacated by them which Mr. Justice recently bought from A. M. Hughes. When these moves are made Tom Hays and family will return from the country and will occupy the concrete residence bought some time ago from the O'Brien family.

The wedding will take place in November.

STREET PAVING.

The street paving work is being pushed on as rapidly as possible under the handicap of a shortage of labor. More men could be used. This work will have to close for the winter when the weather gets colder, as the asphalt can only be applied when the weather is warm. The contractor expects to complete this fall all the space that has been excavated.

ATTENDED REUNION.

In publishing the list of those attending the Vinson reunion at the home of Mr. L. K. Vinson at Glenhays, W. Va., a few days ago we omitted through mistake the names of Col. G. W. Atkinson, Mrs. Atkinson and her mother, Mrs. Virginia Peters, of this place. Mrs. Peters is a member of the Vinson family.

MISS LIDA E. JAMES, SCHOOL LEADER, CLAIMED BY DEATH

Carlisle, Ky.—Miss Lida E. Gardner, Carlisle, for years a leader in educational work in Kentucky and for the last few years organizer of parent-teacher associations throughout the United States, died suddenly of heart disease in Charlotte, N. C. She had been touring the South in her organizational work.

Miss Gardner was actively associated with school affairs in Kentucky for almost twenty years and at the time of her death had been treasurer of the Kentucky Educational Association for four years. She began her educational career at Carlisle, where she served for two terms as County Superintendent of Schools.

GOVERNMENT WILL HONOR MEMORY OF FALLEN HEROES

Washington.—President Wilson has directed that on Sunday, November 14, the American flag be displayed at half-mast on all public buildings and naval and military posts "as a token of the nation's participation in the memorial services held for the heroic American soldiers, sailors, marines and others who gave their lives to their country in the world war."

OIL DEVELOPMENT IN LAWRENCE CO.

The upper Blaine oil field—a live place of territory. Wells are drilling everywhere, it seems, when you visit that field.

The latest well extending the field is on Mordeith Kelly, near the mouth of Coal creek. It is a good well, estimated at 20 to 30 barrels.

Oliver Wheeler No. 2 is drilling and a good camp and other buildings are being erected on the place. This and the Kelly lease belongs to the Cumberland Petroleum company. They have a considerable acreage surrounding it.

The well on James P. Skaggs, on Coal creek, by Frost & Miller, of Huntington, will be drilled in about Saturday or Monday. They got some oil and gas in the time the first of the week.

The third well on P. P. Holbrook is being completed today.

The last well on Brack Holbrook is a good one.

The well on G. C. Swetnam's place near Wilbur has not yet had a pumping test sufficient to show what it will produce, but it is regarded as a paying well.

The Busseyville Oil company's new well on the O'Neal farm, being drilled by Watkins & Preston, should reach the Berea next week.

The well at Walbridge is showing up very nicely on a pumping test now being made.

The East Fork development is going forward and it is believed the pool opened there is a good one.

Board of Trade

Banquet Well Attended

The Board of Trade banquet served Thursday evening of last week by the ladies of the M. E. Church South was quite a success. 31 plates were served.

At the conclusion of the bounteous and delightful dinner Mr. N. M. Orr, secretary of the Board of Trade, opened the talkfest with a few happily chosen remarks.

He introduced Hon. A. O. Carter as toastmaster. Judge Carter took hold of the job like a veteran and handled the fourteen speakers with great skill and more or less mercy.

The speeches covered a wide range of subjects pertinent to the occasion, which was the promotion of the community's interests.

The program was published in the NEWS last week and was followed faithfully, but some of the speakers on the list were called out of town.

Those who were not present to respond to their toasts were Mayor Snyder, Dr. H. H. Sparks, R. C. McClure, E. V. Cole and Col. Jay H. Northup. Capt. F. F. Freese was asked to fill one of the vacancies and did so.

Home and Furniture

Destroyed by Fire

The residence of W. T. Rigby on upper Blaine, near Martha, was destroyed by fire last Sunday afternoon. Nobody was at home and nothing was saved. All the family had left was the clothing they were wearing.

It is believed the fire caught from a defective fuse or from soot in the kitchen chimney.

Mr. Rigby is the father of Mrs. A. R. Dials of Louisa.

SOMERSET LIGHT OIL BRINGS SMALL ADVANCE IN PRICE

RECLASSIFICATION OF KEN- TUCKY OIL ADDS 25c TO 38 GRAVITY AND BETTER.

The following item published in the daily newspapers was followed by announcement of a price of \$4.50 for the higher grade of Kentucky oil, known as "Somerset Light." The new classification applies only to oil run into the Cumberland Pike lines after 7 a. m. last Monday.

The price of the higher grade is not as far above the Somerset as was generally hoped for. \$4.75 or \$5.00 was the price predicted by most of the local people. However, this is a step in the right direction by the purchasing agency and the operators hope for better things later on.

Lexington, Oct. 6.—A very important change in the present purchasing price classification of crude oil in Kentucky of the "Somerset" variety, which includes by far the greater portion of the oil in the state, was announced today by P. J. Hoenig, of the New Domain Oil & Gas Company, the purchasing agency for nearly all the oil produced in Kentucky. Under the new classification a separate price will be posted for all oil testing 38 gravity or above, and this will be designated as Somerset light oil. Although the pipe line company is unable to keep this oil separated it has consented to indicate on the run tickets the gravity of the oil run. It is believed that this arrangement will prove more satisfactory to many producers who have been insisting that the wide variance of value of Somerset crude oil should have some recognition by the buyers. The new price for Somerset light will, of course, be higher than the price for the general Somerset grade. The present price for Somerset, however, will not be reduced.

STREET INTERSECTION BONDS.

The City Council of Louisa is submitting to the voters a proposition to vote \$15,000 bonds for paying the intersection of the streets of Louisa. After the contract was let it was found that this amount will be necessary to finish paying for the intersections in the entire city.

The advertisement is published in another column.

AN EDITORIAL ABOUT PEACE, FOR WOMEN ONLY

(Cincinnati Post)

The editor of The Post has received a number of letters recently from women voters asking this question: "WILL THE LEAGUE OF NATIONS PREVENT WAR?"

Before answering the question the editor cannot refrain from saying that this question reflects great credit on the intelligence of the women voters, BECAUSE it goes straight to the heart of the paramount issue of the presidential campaign.

Governor Cox has said that if he is elected he will put the United States into the League of Nations BECAUSE THE LEAGUE MEANS WORLD PEACE.

Senator Harding has said that if he is elected he will keep the United States out of the League of Nations because it would involve us in every European war.

Now for the editor's judgment—not his opinion but his judgment—based upon the language of the League of Nations covenant.

It is his sincere and earnest conviction that the league covenant is the greatest forward step toward permanent world peace there has ever been taken in the history of the world.

For centuries men and women of every race and nation have dreamed of just such a League of Nations as the only practical way of preventing war.

But it took the reaction from the World War with all its waste of blood and treasure to make the dream come true.

The League was organized and made a part of the treaty of peace in response to the demand of the people of all nations; the fathers and mothers, particularly the mothers, of the boys who had faced the horrors of the great war.

It was not forced upon the people of the world by the statesmen; it was agreed to by the statesmen as the result of the almost, if not quite, unanimous sentiment of the people of the world—the great common people, whose blood and treasure paid for the great war, pays for all wars.

The great, if not the sole purpose, of the men who designed the League of Nations was to bind the nations of the world together in a covenant which would provide for the settlement of future differences by peaceful processes instead of by war.

The covenant provides that no member of the league will go to war without first having done one of two things; submitted the matter in dispute to arbitration, in which case it agrees to abide by the verdict; or submitted it to discussion by the council of the League of Nations. If the

er in dispute is submitted to the council—the nation submitting it promises to lay all the documents and facts before the council; if consents that the council shall publish all the documents and facts so that all the world shall know them; that the council shall be allowed six months in which to consider the matter; that even at the end of six months, if the decision of the council is not acceptable, it will still not go to war for three months following the decision.

The league covenant provides that any nation disregarding these solemn promises with regard to arbitration or discussion shall thereby be deemed to have committed an act of war against every other member of the league and that there shall follow an absolute exclusion of the offending nation from communication of any kind with the other nations in the league.

No goods may be shipped in or out; no telegraphic messages may be exchanged; the offending nation is outlawed and boycotted by the civilized world.

Even if it is possible to assume that any nation would invite such economic disaster, there is not a nation in Europe or in any part of the world that could stand such pressure for six months.

Germany would have collapsed like a house of cards within a few months after she launched her assault against civilization, had she been cut off from all communication with the neutral nations that surrounded her.

Under the League of Nations there will be the open enemy of any nation that violates its solemn pledge.

The editor of The Post is fully conscious of his great responsibility when he says to the women who have asked him the question and to every one of the family of women readers that the League of Nations means world peace.

And he also believes that it is the solemn duty of every woman who wants to help in the cause of world peace to vote for Cox, who has pledged himself to put America into the League of Nations.

Engine Crew is Overcome by Gas; Trains Runs Wild

Ashland, Ky.—Brakemen, believing something wrong when the train did not slow down for curves, clambered over the tender of a C. & O. freight train which had just passed through Princess tunnel, seven miles west of here, and found the engine crew unconscious, lying on the floor of the cab and the train running uncontrolled. Sparks from the locomotive are believed to have ignited leaking natural gas in the tunnel, which exploded and severely burned the engineer and two firemen, who were taken to a Lexington hospital for treatment.

The injured are: G. W. Sanders, engineer, Lexington, face severely burned; W. M. Debord, fireman, Graham, Ky., face burned, may lose eyesight; Herbert Donaway, fireman, Olive Hill, face and neck burned, eyesight endangered. The flames burned all the hair off the trainmen's heads as far up as their caps. Sanders was the only one able to tell his story. The others could not talk.

GO NO FARTHER

The Evidence is At Your Door.

Louisa proof is what you want and the statement of this highly respected resident will banish all doubt:

J. B. Peters, prop. hardware store, Lock Ave., Louisa, says: "I was in constant misery when walking sitting or bending over, on account of my back. When I attempted to rise after sitting down, my back felt weak and sharp pains shot through my kidneys. Rheumatic pains seemed to be all over my body, but particularly in my knees, hips and joints. The kidney secretions were irregular in passage and highly colored. I was languid, discouraged and run down. STOMACH CATARRH
Causes indigestion and suffering, all of which is relieved. Peruna acts so quickly and easily on the stomach and bowels as to cause that common form, nasal catarrh.

IN USE FIFTY YEARS
Peruna is a soothing, healing effect upon all mucous linings. Belching gas, sour stomach, nausea, vomiting, cramps, pains in the abdomen, diarrhoea, constipation are all symptoms of a catarrhal condition in the organs of digestion. It is needless and dangerous. Two generations have found Peruna just the medicine needed for such catarrhs.

The Sorghum season is now at its height and there are a number of people who have not sufficient barrels to take care of their crop. It is impossible for us to procure any additional barrels from the cooperage people and we are therefore compelled to rely on barrels being emptied to take care of farmers who have not secured their barrels. Please do not hold your sorghum but get it to us at once so that we can take care of the man who had no barrels for his crop.

Louisa proof is what you want and the statement of this highly respected resident will banish all doubt:

J. B. Peters, prop. hardware store, Lock Ave., Louisa, says: "I was in constant misery when walking sitting bending over, on account of my back. When I attempted to rise after sitting down, my back felt weak and sharp pains shot through my kidneys. Rheumatic pains seemed to be all over my body, but particularly in my knees, hips and joints. The kidney secretions were irregular in passage and highly colored. I was languid, discouraged and run down in health. Doan's Kidney Pills did me a lot of good and after taking four boxes which I purchased at the Louisa Drug Co., I felt as if I had a different pair of kidneys. All the pains were removed."

OVER SEVEN YEARS LATER, Mr. Peters said: "Although I have very little trouble with my kidneys now I find it necessary to take Doan's Kidney Pills once in awhile. I always get the same good results."

BIE BELLE.

TOLEDO WOMAN HAS GAINED 27 POUNDS

WAS RESTORED TO HEALTH THREE YEARS AGO BY TANLAC, AND STILL FEELS FINE.

One of the latest to testify to the merits of Tanlac is Mrs. George Kerns, of 719 Western avenue, Toledo, Ohio, who in a recent statement reported a gain of twenty-seven pounds and said that although it has been three years now since the medicine restored her health and built her up so wonderfully, she is still feeling fine.

"I have the best of reasons," said Mrs. Kerns, "for saying that Tanlac has real merits for it has been three years since it relieved me of my troubles and built me up so wonderfully and I am still enjoying good health."

"For nearly two years before I took Tanlac I had suffered from stomach trouble and disordered kidneys. My pains, at times, were almost unbearable and while I tried ever so many different kinds of medicine nothing did me any good. I had no appetite scarcely and what little I did manage to eat only made trouble for me. My back and sides pained me constantly and I had fallen off until I was hardly more than a frame."

"When I started on Tanlac I only weighed ninety-eight pounds and just felt perfectly awful. But I had not been taking it very long when I began to feel better and when I got on the scales after finishing my seventh bottle I found I had actually gained 27 pounds, having gone up to one hundred and twenty-five. My stomach and kidneys have never troubled me in the least since that time. In fact, I have enjoyed the best of health all the while. My husband and little son have been complaining of being run down and no appetite this winter, but after taking Tanlac the results are they are both wonderfully improved. It just seems that my son can't get enough to eat and is simply bubbling over with new life and energy. We all think there is no medicine like Tanlac. It has been such a great benefit to the whole family that I never expect to be without a bottle in the house."

Tanlac is sold in Louisa by Mrs. J. H. Reynolds.

Rev. Roland Hutchison preached at Jettie Sunday.

The drilling of well No. 1 on Spring Creek has been delayed again on account of a broken drill. However, it will soon be down a thousand feet.

We are informed that a well will soon be drilled on V. B. Shortridge's farm on Little East Fork. The more the merrier, let 'em come.

Mr. and Mrs. J. H. Frasher and babies spent Saturday and Sunday with friends at Fallsburg.

Mrs. Lottie Daniels received the sad intelligence Saturday that her father, Tom Hicks, died suddenly Saturday morning at his home in Elliott county. He was a hard-working man and a good citizen. Such are a loss to any community.

Hon. A. W. Summers, of Winchester, was here last week. He is interested in the production of oil and gas.

The general apathy of the voters here show that they are not interested in the coming election, and unless conditions change, lots of them will not even go out and vote. As our government is a government by party the voters should all vote and express their preference on the leading questions of the day. If you believe in the principle candidate stands for vote for him, and if you don't, vote against him.

ANNOUNCEMENTS

We are authorized to announce CHARLEY EDWARDS as a candidate for the Republican nomination for County Court Clerk of Lawrence co., at the primary to be held in August, 1921.

Friday, October 15, 1920.

The election this year falls on November 2—Tuesday.

President Wilson has made public the telegrams and correspondence that passed between him and Ex-President Taft. Ellihu Root and Charles E. Hughes have the League of Nations was being written. It shows that all the five suggestions made by Taft were written into the League, five out of seven suggested by Root were adopted, and nearly all those proposed by Mr. Hughes were used. This settles the charge that Wilson consulted nobody in these matters. It is recalled that when he came back home with the first draft of the League he called the Senators to the Whitehouse and went over the entire document and made changes suggested there. Then he took the document back to Paris and succeeded in getting the other nations to agree to them.

Do we want our boys sent to war? Of course we don't. The only way to prevent it is to vote for the Peace League of Nations, for which Cox and Roosevelt stand. Don't be fooled by what some politician tells you. Read the League covenant yourself, and then read the constitution of the United States. It is simple language and anybody with ordinary intelligence can understand it.

Gov. Cox and Franklin Roosevelt are so sure that it is a successful plan for world peace that they have issued this pledge:

We solemnly pledge the people that not one single American boy shall be sent from our shores to fight, unless the people of the United States demand it and Congress sends them.

That certainly ought to make it fool proof.

If the League of Nations had been organized ten years ago, with the United States and forty other nations as members, the awful world war would never have taken place. Germany would not have started it. She had no idea when she started the war that the United States and several other nations would take a hand. The League of Nations would have had so much potential power that Germany would not have dared to take chances on a war of conquest. Let's guard against such another calamity by adding our moral force and power to that of all the other civilized nations of earth. We can not be forced into war thru the League, because our constitution says that only our Congress can put us into war, and the League recognizes this fact. No President nor Congress can change our constitution. It can only be done by a long tedious process through the Legislature of the States, and there is not the slightest danger of this change being made.

TO THE DEMOCRATS OF KENTUCKY

The National Democratic Headquarters is impatiently in need of funds with which to finance the present campaign and has appealed to me to offer an opportunity to the Democrats to aid. This I am pleased to do. Every voter, man or woman, who earnestly desires the election of our ticket is requested to give without delay to the Editor of this paper, who will immediately forward it to John R. Downing, State Treasurer for National Committee, Citizens Union National Bank, Louisville, such voluntary contribution as he or she may care to make. Same will be forwarded promptly to National Headquarters in New York, with name of donor. Contributions, no matter how small, will be accepted and appreciated.

A hearty response to this call is confidently expected.

J. N. CAMDEN, National Committeeman.

WHAT'S DOING IN POLITICS

Registration figures throughout

Kentucky prove highly encouraging to the Democratic party. Compared with the registration in the Presidential race in 1916 there is a decided gain in the Democratic majorities throughout the state. The only encouragement the Republican machinery received was in the city of Louisville, where the throng of negro office holders and their friends piled up a large total.

Despite this fact, Chairman John L. Grady, Chairman Democratic State Headquarters, is highly encouraged by the registration. "These figures," he declared, "indicate clearly what is happening throughout the State of Kentucky."

The new voters, who are mainly women, have definitely aligned themselves with the Democratic party and the great moral cause it represents in the League of Nations.

"The gains made by our forces in the smaller cities were in many cases remarkable. There is absolutely no doubt that 75 per cent of the women's vote of the state will be cast for the Democratic ticket in November, which makes victory for the Democratic ticket in this state certain."

Characteristic of the Republican policy of taxation is the law enacted by the State Legislature relative to tobacco. This law fixes the burden on the farmer, who, with tobacco in his barn, or in a hoghead being held for a better price, is required to pay a rate of 40 cents on the valuation. The tobacco speculator holding tobacco from the same goods, whether or not it is in hogheads, is required to pay a rate of only 15 cents on the same valuation. The Republican party is no friend of the tobacco farmer.

Governor Ed Morrow has gotten himself in a pretty tangle because of a speech he made, deliberately misrepresenting the League of Nations. This ballyhoo orator told his audience that the United States could be forced to send an army to Spain or "timberland" without the consent of Congress. When Franklin D. Roosevelt twitted him on his knowledge of geography, the governor answered that he might not know geography, but he certainly does know American history. Whereupon Mr. W. W. Davies gave Gov. Morrow a little lesson in American history, accompanying it with the assertion that the governor knows less history than he knows geography.

Mr. Davies cited at least five treaties made by the United States in which the political integrity and independence of various nations are guaranteed by the United States. This is the exact verbiage of Article X which the Republican side show, splinters declare will lead us into wars. Thus the Republican party wants to withdraw from the treaties guaranteeing the independence of Columbia, Liberia, Panama, Hawaii and Cuba. They signed these treaties under Republican presidents and nobody made the foolish claims that they would lead us into wars.

Being Republican candidate for Congress from the Fifth District, Congressman Charles F. Ogden naturally prefers black audiences to white. Last Monday he failed to respond to an invitation to address the Ministerial Association of Louisville, composed of white ministers. A week before, however, he displayed great alacrity in making a speech to an assembly of colored preachers and colored church women. Because of Ogden's non-appearance at this meeting, James H. Richmond, Democratic nominee for Congress, has challenged him to a debate on the League of Nations. He has as yet received no reply.

How long do you want to carry the burdens of the Republican party? The Republican Congress of 1918-20 has appropriated five billion four hundred million dollars to be spent this year. THIS IS THE LARGEST PEACE - TIME APPROPRIATION EVER MADE IN THE HISTORY OF THE UNITED STATES.

The Republican Tax Commission in Kentucky has increased taxes (to the highest point ever known in this state by boosting all assessments.

The Republican City Administration in Louisville has imposed the highest tax rate and the largest assessment ever known to the citizens of Kentucky's metropolis.

Everywhere the record is the same. Wherever the Republican party administers government, there taxes are unprecedently high.

The Louisville News, a negro newspaper of Louisville, is making a terrible onslaught on Senator Pat Harrison, Chairman of the Democratic Speakers' Bureau, comparing him, of course to his disparagement, with the negroes who were sent to the Congress from Mississippi during the carpet-bagging days. In this connection the paper says: "When negroes ruled Mississippi our delegations were composed of statesmen who kept faith with their oaths to keep the Constitution, who consecrated themselves to the great problems of democracy."

Do you want these negro statesmen reinstalled in office? If so, vote for Senator Harding, who has promised to give them full representation—black men and black women—in the offices of the country.

—we have reduced our prices in conformance with the Spring market—excellent savings over the old prices are now offered.

At the Carpet Opening, held this month in New York, the new price scale for Spring was announced. These prices are considerably lower than those in effect up to the present time. We have gone through our stocks and revised our prices accordingly—and you'll find them most favorable.

—AND HERE — THE LARGEST STOCK OF RUGS IN WEST VIRGINIA

Not only do you have the advantage of these new price revisions, but your selection can be made from a wonderfully large variety. Metropolitan in its scope and completeness, our collection omits nothing that is good and offers a full variety of all standard makes.

There are Wiltons, Axminsters, Chenille, Wilton Velvets, Plain Wool and Wool Fibre Rugs

Fully as important as this completeness, is the fact that every wanted size—odd or regular—is included, while the patterns are in duplicate—allowing one to select the same pattern, size and colorings for as many rooms as desired.

We are convinced that our assortment cannot be duplicated in the state—and customers tell us that our prices are really lower. What better combination would you want when you buy your rugs?

BLOOD IS FUEL TO THE BODY

PUMPED THROUGH THE SYSTEM BY THE HEART IT SUSTAINS THE MUSCLES AND TISSUES.

PEPTO-MANGAN HELPS BLOOD.

Keep the Quality of Your Blood at its Best—It Means Vigorous Health and Ability to Accomplish.

Blood acts like a fuel. Pumped through the body by the heart, it sustains the muscles and tissues. It renews them. It feeds the brain—the tissues of the eye and face. That is why people look so pale and lifeless when blood is impoverished. The body tissues are being supplied with weak fuel. The blood has not enough red corpuscles. You would not eat poor food with no nourishment in it; no more should you let the fuel that supplies sustenance to your entire body be inferior. Have good blood. Improve the quality and keep it at its best.

If you look pale and feel weak, if you have lost your enthusiasm and energy, if your blood is clogged with poisons, your system is being fed with a poor grade of blood. That is no way to go around. If you are not at your best, get at the source of the trouble right away. Put an end to half-living.

Take that ideal tonic, Pepto-Mangan, to tone up your blood and purify it. Get the full enjoyment out of living. Breathe the fresh air, take exercise.

Be sure to ask for "Gude's" Pepto-Mangan. It comes in convenient tablet form and in liquid. One has the same medicinal value as the other. There is only one genuine Pepto-Mangan, and the name "Gude's" is on the package. Advertisement.

PAINTSVILLE

Paintsville Merchant Dies.

Nathan Flax, member of the firm of Oppenheimer & Flax, died in a hospital in Cincinnati Saturday after having received a fracture of the skull a few days ago on the streets of Cincinnati. Mr. Flax had been in Paintsville and suffered an attack of apoplexy, leaving the next day for his home in Cincinnati. He was found on the streets in an unconscious condition and was taken to a hospital. For some time it was thought that he had met with foul play but members of his family say that he fell on the pavement from another attack of the disease, causing the fracture.

Mr. Flax moved to Paintsville about 15 years ago and engaged in business with Mr. S. Oppenheimer. The store is the oldest of its kind in the city and has a large patronage. He was also interested in the coal and oil development of this section and was considered one of our best citizens.

A few months ago he moved his family to Cincinnati where they were in school, but retained his business connections here, spending most of his time in Paintsville. His death has removed one of our best citizens and business men.

Rev. Short Here.

Rev. Short, the new pastor of the Mayo Memorial church, arrived in Paintsville Friday and preached his first sermon to a large congregation Sunday morning. At the evening service this congregation was made up of people from the different churches of the town. Both sermons were interesting and instructive. Rev. Short comes from the Marion, Ky., church, where he was pastor of the Methodist Church South for four years. He is a young progressive church worker and an able preacher. The outlook is bright for a successful year. Mrs. Short and the three children are expected here about the 15th.

Man Found Dead.

A man about 65 years of age was found dead at the Forks of Daniels creek Saturday night. Magistrate J. W. Butcher held an inquest. He was a stranger passing through the country horseback, the horse being found a short distance from the body. \$272.95 and five war savings stamps, together with a watch and papers, etc. A check book on a Williamson bank showed he had \$298 in bank. Papers with the name of B. U. Bechtel were found on his person, giving Thacker, W. Va., as his postoffice.

Wells-Arrowood.

Miss Vina Wells, daughter of Mr. and Mrs. John B. Wells, was married to Irvin Arrowood in Paintsville by Rev. Arthur Green. The bride is a popular young lady who has been in High School. Mr. Arrowood has a position with the North-East Coal Co. at Thealeka.

Brought Here for Burial.

Mrs. Edna Earl Mandville, daughter of Col. and Mrs. J. K. Dixon, died at her home in Louisville Saturday and the remains were brought to Paintsville Monday for burial. Her husband died about three years ago. Two children are left. The funeral was conducted by Rev. W. C. Stewart at the M. E. Church Tuesday.

The Dixon family formerly lived in Paintsville, Col. Dixon having been County Judge and County Clerk of Johnson county. GOOD HEALTH HINTS

Oklahoma Farmer Gives Sound Advice on Avoiding Sickness—Used Black-Draught 30 Years.

Cameron, Okla.—"I have used Theodor's Black-Draught for about thirty years, and certainly ought to know by this time what a good medicine it is," says Mr. T. L. Bostler, a well-known farmer of this place. Mr. Bostler has passed his three-score-and-tenth year, but declares his health still is good, "and I can say Black-Draught did it."

"Where there is a lot of malaria, a liver medicine is a necessity, and I have never found one better than Black-Draught," continues the Oklahoma man. "It is one that I know to be reliable. I use it for the liver, stomach, constipation, indigestion, and it has done me a world of good. We use it for the family, and it gives satisfaction."

"Most trouble, or sickness, comes from the liver, and if taken in time can be avoided. That is why I use Black-Draught as I do. I am much pleased with results obtained."

Theodor's Black-Draught is purely vegetable. It acts on the bowels, gently stimulating the liver, and helps increase the normal flow of bile into the intestines. It assists in the digestion of food, and relieves constipation in a prompt and natural way.

The special train carrying Republican speakers arrived at Prestonsburg Tuesday afternoon last week. Col. Theo. Roosevelt, Jr., was the first speaker and Gov. Ed Morrow followed. The former gentleman is surely an artist when it comes to making ugly faces. Both attempted to attack the League of Nations. Certain-teed Roofing is Spark-Proof

Certain-teed will protect your property against fires due to sparks dropping on the roof from passing engines. It also helps to prevent fires spreading from building to building by means of sparks and burning embers.

Where fires have started in other parts of the building, Certain-teed Roofs tend to smother them and thereby prevent serious damage to other property.

This type of protection is appreciated by all property owners and particularly by those who are outside of the zone of adequate fire-fighting apparatus.

But Certain-teed Roofing is more than an aid in the prevention of fire. It also protects from rain or snow and is guaranteed for five, ten or fifteen years, according to weight.

It costs less to buy, less to lay and less to maintain than any other type of good roofing.

See a Certain-teed dealer about roofing. If he can't fill your entire order from stock, he can get what you want quickly from a nearby Certain-teed distributing center.

"Gets-It" Wonder Corn Peeler

Just as Good for Calluses. Money Back if it Fails.

Don't be bothered through life by a peck corn or callus. Don't let a corn tell you when to sit down. Don't wear shoes too large for you because a corn says you must. Get rid of the darned thing.

It's a revelation to corn sufferers, the wonderful way that "Gets-It" banishes corns. Spend two minutes—that's all—to apply 2 or 3 drops to any corn or callus. The pain will stop instantly. In a few seconds the corn dries right up. Soon it has loosened so you can peel it off in one complete piece, root and all. "Gets-It" is sold by all druggists; money back on request, costs but a trifle. Mfg. by E. Lawrence & Co., Chicago.
